### Montage Closes Bought Deal Private Placement of Common Shares

**Vancouver, British Columbia – April 12, 2023 – Montage Gold Corp.** (“**Montage**” or the “**Company**”) (TSXV: MAU) is pleased to announce the closing of its “bought deal” private placement offering of 21,786,300 common shares (the “**Offered Shares**”) at an issue price of \$0.70 per Offered Share (the “**Issue Price**”) for gross proceeds of \$15,250,410 (the “**Brokered Offering**”), including the full exercise of the option granted to the Underwriters (as defined herein) in connection with the Brokered Offering. The Brokered Offering was led by Canaccord Genuity Corp., as lead underwriter, on behalf of a syndicate of underwriters including BMO Capital Markets, Beacon Securities Limited, and Raymond James Ltd. (collectively, the “**Underwriters**”). The Company intends to issue shortly hereafter, on a non-brokered basis, an additional 2,714,300 Offered Shares at the Issue Price for additional gross proceeds of \$1,900,010 (the “**Non-Brokered Offering**”, and together with the Brokered Offering, the “**Offering**”). Following closing of the Non-Brokered Offering, the Company will have issued an aggregate of 24,500,600 Offered Shares for total gross proceeds of \$17,150,420 under the Offering.

The net proceeds from the issue of the Offered Shares are intended to be used for the Company’s ongoing exploration and drilling program at the Koné Gold Project, including the advancement of an updated mineral resource estimate and for work related to an updated feasibility study, and for working capital and general corporate purposes, as further described in the Offering Document (as defined below).

The Company paid the Underwriters a cash fee equal to 6.0% of the aggregate gross proceeds of the Offered Shares sold under the Brokered Offering (other than in respect of certain president’s list subscribers, for which no cash fee was payable) and an advisory fee equal to \$114,000.60 in connection with the Non-Brokered Offering.

Subject to compliance with applicable regulatory requirements and in accordance with National Instrument 45-106 – *Prospectus Exemptions* (“**NI 45-106**”): (i) 14,285,700 Offered Shares were issued to purchasers resident in Canada and/or other qualifying jurisdictions pursuant to the listed issuer financing exemption under Part 5A of NI 45-106 (the “**Listed Issuer Financing Exemption**”); and (ii) 7,500,600 Offered Shares were issued (and the additional 2,714,300 Offered Shares under the Non-Brokered Offering are intended to be issued) to purchasers resident in Canada and/or other qualifying jurisdictions pursuant to other prospectus exemptions under NI 45-106. The Offered Shares issued to Canadian resident subscribers pursuant to the Listed Issuer Financing Exemption are not subject to a hold period pursuant to applicable Canadian securities laws. The Offered Shares issued to Canadian resident subscribers pursuant to prospectus exemptions under NI 45-106 other than the Listed Issuer Financing Exemption are subject to a restricted hold period under applicable Canadian securities laws expiring four months and one day from the date of issuance of the Offered Shares. The Offering remains subject to final approval of the TSX Venture Exchange (“**TSXV**”).

Insiders of the Company participated in the Offering. Pursuant to Multilateral Instrument 61-101 *Protection of Minority Security Holders in Special Transactions* (“**MI 61-101**”), the Offering constitutes a

“related party transaction” given the fact that insiders of the Company subscribed for Offered Shares. The Company is relying on exemptions from the formal valuation and minority approval requirements of MI 61-101, specifically: (i) the valuation requirement of MI 61-101 by virtue of the exemption contained in Section 5.5(b), as the common shares are not listed on a market specified in MI 61-101, and (ii) the minority shareholder approval requirement of MI 61-101 by virtue of the exemption contained in Section 5.7(1)(a) of MI 61-101, as the fair market value of the Offered Shares issued does not exceed 25% of the Company’s market capitalization (as determined under MI 61-101). A material change report was not filed by the Company at least 21 days before the closing of the Offering, as the Company was seeking to close expeditiously to confirm funds for the Offering. In the view of the Company, this approach is reasonable in the circumstances. The Offering was approved by all of the independent directors of the Company.

There is an offering document (the “**Offering Document**”) related to the Offering that can be accessed under the Company’s profile at [www.sedar.com](http://www.sedar.com) and on the Company’s website at [www.montagegoldcorp.com](http://www.montagegoldcorp.com).
